## My DREAM Business Start Up Programme

### **My DREAM Business Start Up Programme**

I am an Intuitive Life Coach and Psychic Medium, and I help people like you to build their DREAM business by connecting with their Soul Purpose through the Soul of their business. I support you to find the strategies you need to maintain it.

This 12-week course is where you will get clear on what your Soul DREAMS of, how you can bring your Souls DREAM to the world and how you can build a business around it.

This programme is bespoke to you because we all have a different vision for our business, it is as individual as you are.

This DREAM Business Course is for you if:

- You have a business idea, and don't have the confidence yet to start
- You are working in a job that is unfulfilling or has had its day
- You know you have 'more' to give, and are not sure how to deliver it
- You lack self-belief which stops you from expressing who you truly are
- You have a 'calling' but something stops you from realising it for now
- Taking that leap of faith is harder than you thought
- Feeling vulnerable because you are sensitive and caring
- You know you can ease the burden of others

This is where my experience can help and support you to realising your DREAM business and the steps you need to put in place to not only sustain it, but to keep it growing. I can help you to step into your purpose with self-belief and confidence.

This is my Soul Purpose – to make your Life Purpose meaningful and fun

I have had my holistic business since 1998, and I understand what can hold you back and stop you from letting your light shine:

- You feel frustrated because you feel like you have a deeper purpose, but lack the confidence to go for it
- You feel like you do not have the skills to be a business owner
- Scared that you will fail which gets in the way of you making a difference
- Don't like taking risks especially with money
- Find it difficult to charge your worth

This is the basic route from where you are now to where you wish to be. On this 12 week programme we will connect once a week for an hour or an hour and a half, this may be in person or on a video call. We will cover some or all of the following and it may be in a different order. This is intuitive and so are you:

- Your Soul Purpose – what it is and how to build a business around it... only you know what it is!
- Life Mission – knowing what your Soul Purpose is, is only part of the picture. Once you know your Soul Purpose, it makes your Life Mission that much easier.
- Do you need further training?
- Formulating a plan or blueprint from here to there, to help build confidence
- How to connect to your Higher Self and The Spirit of your business so that you Trust what they bring. This will help to elevate your self-esteem
- Self-care – physically, mentally, emotionally and spiritually – including Mindfulness and Meditation
- Intuition as a Lifelong Tool
- Mindset – what it takes to be a business owner/entrepreneur
- Limiting Beliefs how to deal with them and remove the blocks they create
- Your vision – clarity and viability to align with your personal and professional goals – Law of Attraction and Visionboards
- Goal setting – step by step along with Time Management
- Visioning and Imagination and Journalling
- Branding – how to build it
- Advertising and marketing – Finding the right market and your ideal clients
- Support – how to find the right staff and keep them
- Practical things like – Location, equipment, accounts
- Accountability – Commitment and keeping on course
- And more...

These are just some of the things we can cover in the 3-months. Each programme is tailored to suit you and your needs, so no two programmes will be the same.

Your investment in your DREAM is £2500  
If you would like a payment plan, then please ask!

Just imagine what it would be like to get clear on your idea so that you bring your Souls DREAM business to life. Any business should be an expression of you and what your unique gifts are.

Some people think that having a Soul led business means doing something woo woo, something that is part-time, or you don't earn a good living from it, because doing something Soul based means you have to give it away. None of these are true, it simply means your Souls DREAM business is led by you and is inspired by what you know to be your truth. There is no competition that way and you enjoy what you do in a calming and peaceful way.

Imagine working the hours you choose and how fulfilling it is to see your hard work being rewarded with high paying clients and an income to reflect it. Your energy is better spent doing something for you and being rewarded for it rather than working long hours for someone else.

Imagine connecting with your 'calling' and being able to express it with confidence knowing that it can be realised through true belief and determination.

I can help and support you to realising your Souls DREAM business and the steps you need to put in place to not only sustain it, but to keep it growing. I can help you to step into your purpose with self-belief and confidence.

I support you to find the strategies you need to maintain your business once it is up and running. This includes mindset and abundance issues, along with understanding your part in your own business and any help you may need to keep it flowing.

Believe me I know how frustrating it is to go to work every day sitting on an idea and not knowing where to start with it. I know how hard it is to motivate yourself to even go into work some days, and once there you clock watch until it is time to go home.

I was a corporate account manager with a good salary but gave it all up to realise My Souls DREAM Business... It was one of the best things I have ever done. Who better to help and support you than someone who is living the DREAM?

Discover the unique talents you have to be the best entrepreneur that you can be. Invest in your future – this is real life and not a fairy tale. This course will give you a strong foundation for growth, help you to unlock your potential and prepare a plan for success in your DREAM Business.

If you are ready to live your DREAM how you want to live it... then connect with me now.
